

## Statistics for the SDGs - global indicators

<b>Name of the indicator</b>	<b>2.a.1 The agriculture orientation index (AOI) for government expenditures</b>
<b>Sustainable Development Goal</b>	Goal 2. Zero hunger
<b>Target</b>	2.a Increase investment, including through enhanced international cooperation, in rural infrastructure, agricultural research and extension services, technology development and plant and livestock gene banks in order to enhance agricultural productive capacity in developing countries, in particular least developed countries
<b>Definition</b>	The indicator consists of Agriculture Share of Government Expenditures in the total Government Expenditures divided by the Agriculture Share of GDP.
<b>Unit</b>	[-]
<b>Available dimensions</b>	total
<b>Methodological explanations</b>	<p><b>Agriculture Share of Government Expenditures</b> means Central Government Expenditures on Agriculture related to Total Central Government Outlays (according to Classification of Functions of Government - COFOG).</p> <p><b>Agriculture Share of GDP</b> means Agriculture Value Added in relation to gross value added in section Agriculture (i.e. Division A - Agriculture, forestry, fishing and hunting of PKD2007 ), related to value of GDP, according to ESA2010.</p> <p><b>Gross domestic product (GDP)</b> illustrates the final result of the activity of all entities of the national economy (resident producer units – domestic) in a given year. The exact definition and methodology for calculating GDP is contained in the regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA 2010).</p> <p>An Agriculture Orientation Index (AOI) greater than 1 reflects a higher orientation towards the agriculture sector, which receives a higher share of government spending relative to its contribution to economic value added. An AOI less than 1 reflects a lower orientation to agriculture, while an AOI equal to 1 reflects neutrality in a governments orientation to the agriculture sector.</p>
