

## Statistics for the SDGs - indicators for national priorities

|                                     |   |
|-------------------------------------|---|
| <b>Name of the indicator</b>        | <b>2.1.a Agricultural Orientation Index for government expenditures (AOI)</b>   |
| <b>Sustainable Development Goal</b> | Goal 2. Zero hunger   |
| <b>Priority</b>                     | Support for structural transformation ensuring increase in agriculture competitiveness including increase in competitiveness of agricultural holdings and agri-food producers   |
| <b>Definition</b>                   | Share of central government expenditure allocated to agriculture in total central government expenditure, related to the share of agriculture in GDP.   |
| <b>Unit</b>                         | [-]   |
| <b>Available dimensions</b>         | total   |
| <b>Methodological explanations</b>  | <p><b>Agriculture Share of Government Expenditures</b> means Central Government Expenditures on Agriculture related to Total Central Government Outlays (according to Classification of Functions of Government - COFOG).</p> <p><b>Agriculture Share of GDP</b> means Agriculture Value Added in relation to gross value added in section Agriculture (i.e. Division A - Agriculture, forestry, fishing and hunting of PKD 2007, related to value of GDP, according to ESA2010).</p> <p><b>Gross domestic product (GDP)</b> illustrates the final result of the activity of all entities of the national economy (resident producer units - domestic) in a given year. The exact definition and methodology for calculating GDP is contained in the regulation (EU) No 549/2013 of the European Parliament and of the Council of 21 May 2013 on the European system of national and regional accounts in the European Union (ESA 2010).</p> <p><b>An Agriculture Orientation Index (AOI)</b> greater than 1 reflects a higher orientation towards the agriculture sector, which receives a higher share of government spending relative to its contribution to economic value added. An AOI less than 1 reflects a lower orientation to agriculture, while an AOI = 1 reflects neutrality in a government orientation to the agriculture sector.</p> |
| <b>Data source</b>                  | Statistics Poland / Food and Agriculture Organization of the United Nations (FAO)   |
| <b>Data availability</b>            | Annual data; since 2010   |
| <b>Notes</b>                        |   |
