

## Statistics for the SDGs - global indicators

<b>Name of the indicator</b>	<b>11.1.1 Share of total population living in a dwelling with a leaking roof, damp walls, floors or foundation, or rot in window frames or floor</b>
<b>Sustainable Development Goal</b>	Goal 11. Sustainable cities and communities
<b>Target</b>	11.1 By 2030, ensure access for all to adequate, safe and affordable housing and basic services and upgrade slums
<b>Definition</b>	Percentage of persons that declared, at least in one case, that they live in a dwelling with a leaking roof, damp walls, floors or foundation, or rot in window frames or floor.
<b>Unit</b>	percent [%]
<b>Available dimensions</b>	total, urban areas / rural areas
<b>Methodological explanations</b>	<p>The category of households includes persons that, at least in one case, declared that they live in a dwelling with a leaking roof, damp walls, floors or foundation, or rot in window frames or floor.</p> <p>The questions from the EU SILC survey:</p> <p>untill 2014: Does your dwelling have: a leaking roof, damp walls, floors or foundation or rot in window frames or floor?</p> <p>since 2015: Does your dwelling have: A. a leaking roof, B. damp walls/floors/foundation, C. rot in window frames or floor?</p>
<b>Data source</b>	Statistics Poland
<b>Data availability</b>	Annual data; since 2010.
<b>Notes</b>	<p>The presented indicator (11.1.1 Share of total population living in a dwelling with a leaking roof, damp walls, floors or foundation, or rot in window frames or floor) is a proxy indicator to the one adopted in the official list of indicators of the UN Sustainable Development Goals. The replacement of the original indicator (<a href="#">11.1.1 Proportion of urban population living in slums, informal settlements or inadequate housing</a>) is due to the inability to obtain data for it. The proxy indicator has been selected so as to most fully reflect the essence of the observed phenomenon.</p>
