

## Statistics for the SDGs - indicators for national priorities

<b>Name of the indicator</b>	<b>11.1.e Transport of passengers per 1 inhabitant of urban areas</b>
<b>Sustainable Development Goal</b>	Goal 11. Sustainable cities and communities
<b>Priority</b>	Enhancement of cities and urbanised areas' capability for sustainable development and workplace creation as well as improvement of quality of life of their inhabitants
<b>Definition</b>	The ratio of the number of passenger transport by public transport to the number of population in the cities.
<b>Unit</b>	persons
<b>Available dimensions</b>	total
<b>Methodological explanations</b>	<p><b>Transport of passengers by public transport</b> is the sum of passengers transported by public transport, generally accessible to the public, i.e. buses, trams and trolleybuses. A single pass is considered a transported passenger by public transport.</p> <p>The number of passengers is estimated on the basis of the number of one-off and multi-trip tickets sold, taking into account the standards for the number of journeys for a given multi-pass ticket accepted by public transport establishments.</p> <p>Data refer to enterprises and municipal transport companies employing more than 9 people.</p> <p>Data on residents of urban areas were taken from statistical information on the number of population in cities according to the actual place of residence.</p>
<b>Data source</b>	Ministry of Infrastructure
<b>Data availability</b>	Annual data; since 2010
