| Priority | Improvement in legislation quality and application of law |
| Definition | Perceptions of the ability of the government to formulate and implement sound policies and regulations that permit and promote private sector development. |
| Unit | points |
| Available dimensions | total |
| Methodological explanations | Regulatory quality is one of the six good governance indicators, so called Worldwide Governance Indicators (WGI). The other good governance indicators include: voice and accountability, political stability and absence of violence/ terrorism, government effectiveness, rule of law and control of corruption. The six aggregate indicators range from -2.5 to 2.5, with higher values corresponding to better governance. |
